Projects

QuizCode – Frontend Quiz App

Tech Stack: HTML, CSS, JavaScript, Git/GitHub

- Built a responsive frontend quiz web app using HTML, CSS, and JavaScript with multi-screen navigation.
- Implemented real-time score tracking, timer countdown, and contextual feedback to improve UX.
- Used DOM manipulation for question flow, animated progress bar, and accessible layout with media queries.

Code Review Agent

Tech Stack: React.js, Node.js, Express.js, TailwindCSS, Gemini LLM API, Git/GitHub

- Developed an AI Code Reviewer that analyzes uploaded code using the Gemini 1.5 Flash API and provides structured feedback on bugs, optimizations, and complexity.
- Implemented file upload, language selector, and Markdown-based result rendering in a responsive React frontend with syntax highlighting via PrismJS.
- Used a system prompt to simulate a senior developer's review style for cleaner, more useful output.
